

How To Use 'Libby' App From OverDrive

built with  by *OverDrive*

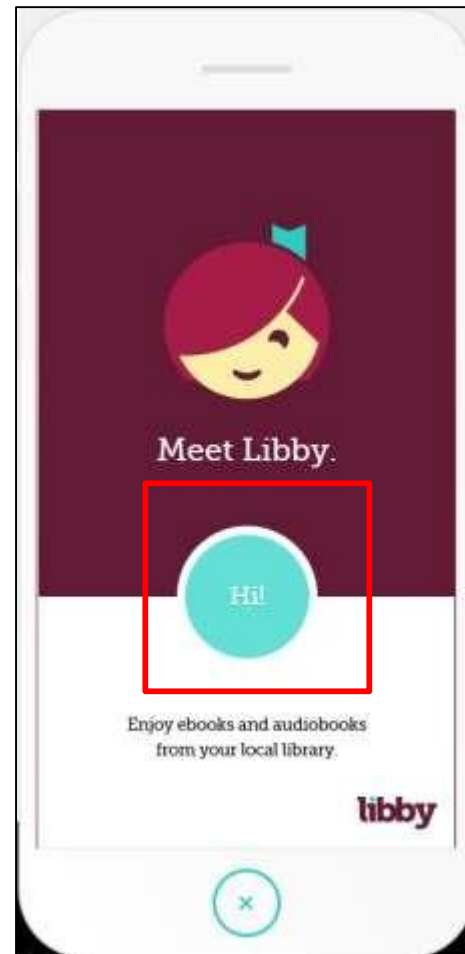

Meet Libby.

SABAH STATE LIBRARY 2020

Meet Libby

- Libby is OverDrive's next generation app
- It is designed to be simple and easy to use
- It is available for Apple devices (iPhones, iPads), Android devices, and Windows 10 devices
- To start using Libby, tap "Hi!"

Find Library

- Next, you will need to add your library. Scroll down and tap “Find My Library”.

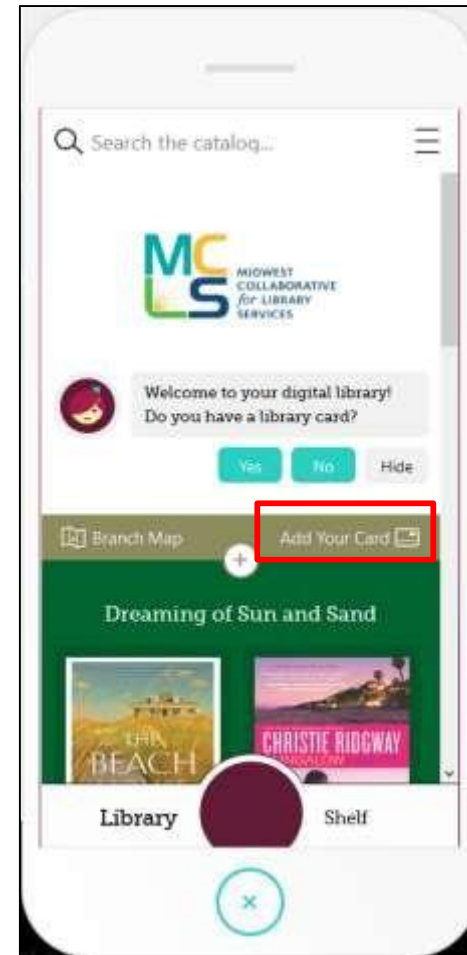

Library Location

- If your device has location options turned on Libby will try to find the nearest library that offers OverDrive.
- If does not find the correct one, simply use the search box at the top to lookup your library by name or zip code.

Add Library Card

- After a location is selected, you will need to add your card to the Libby app. Tap “Add Your Card”.
- You will be taken to a login screen. Select Sabah State Library and enter your library card number.

Place Hold

- A book search will find both eBooks and eAudiobooks
 - eAudiobooks will have a headphone symbol beneath 
 - Example:
- If the title has holds, tap Place Hold to place that title on hold.
 - A hold indicator shows the approximate hold time. For more detailed information, tap the hold indicator. 
 - Example:

Place Hold, Part 2

- Tap “Place Hold!” to finish placing at item on hold.

Place Hold, Part 3

- After you've placed a hold, you can read/listen to a sample, or go back to browsing titles.

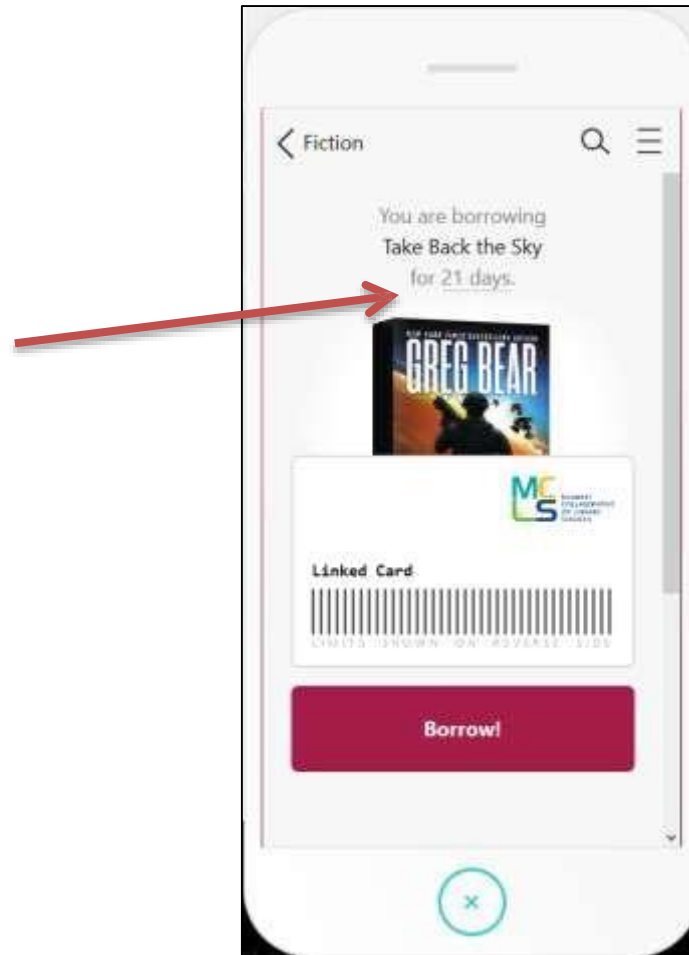

Borrowing Items

- If an item is available, instead of saying Place Hold it will say borrow. Tap Borrow to check out the item.

Borrowing Items, Part 2

- To complete the checkout process, tap “Borrow!”.
 - Note: you can adjust the checkout period by tapping the days indicator.

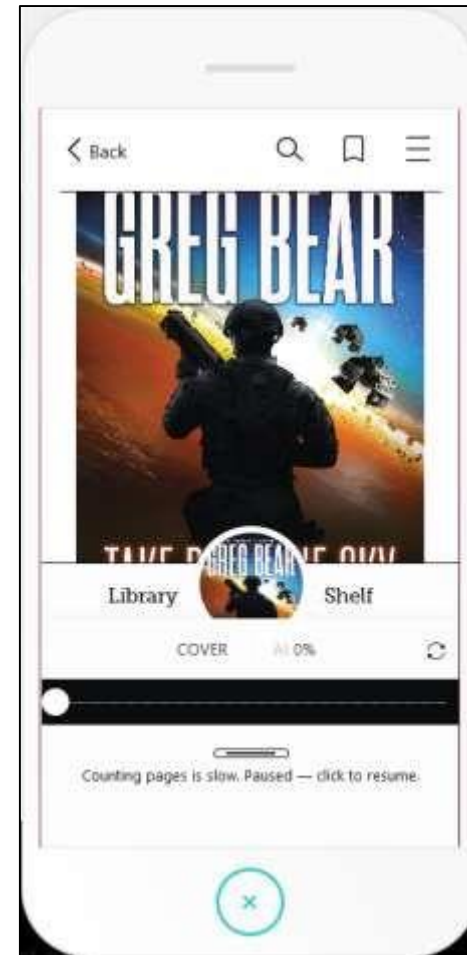

Borrow Items, Part 3

- After you've borrowed an item, you can begin reading or listening to it, or go back to browsing titles.

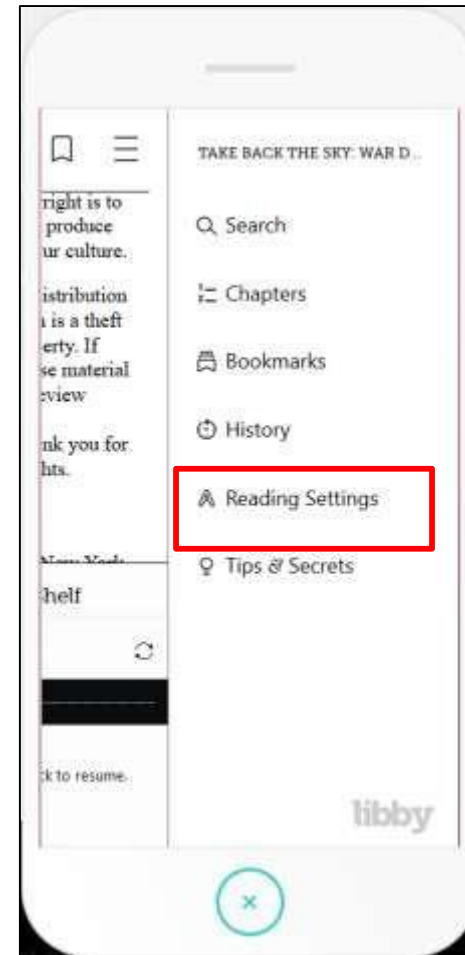

Reading an eBook

- When you open an eBook you will be brought to Libby's eBook reader.
- Simply tap the cover to begin reading.

eBook Options

- Tap the middle of the eBook to bring up a sidebar of options.
- You can change font style, size, and more from the Reading Settings options.

Library and Shelf

- At the bottom of the Libby are 2 links: Library and Shelf.
- Shelf shows your items you have checked out, as well as holds and app activity. Here at the Loans screen we see items we currently have checked out.
 - The most recent item you were using is in the circle between Library and Shelf. Tap on it to quickly go back to your most recent book.

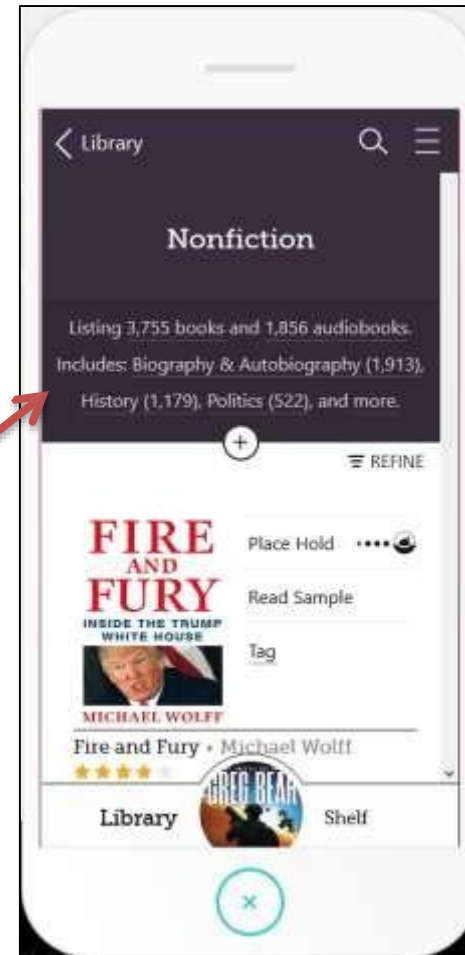

Shelf: Holds

- Tapping on the Holds item in the Shelf shows items you have on hold.

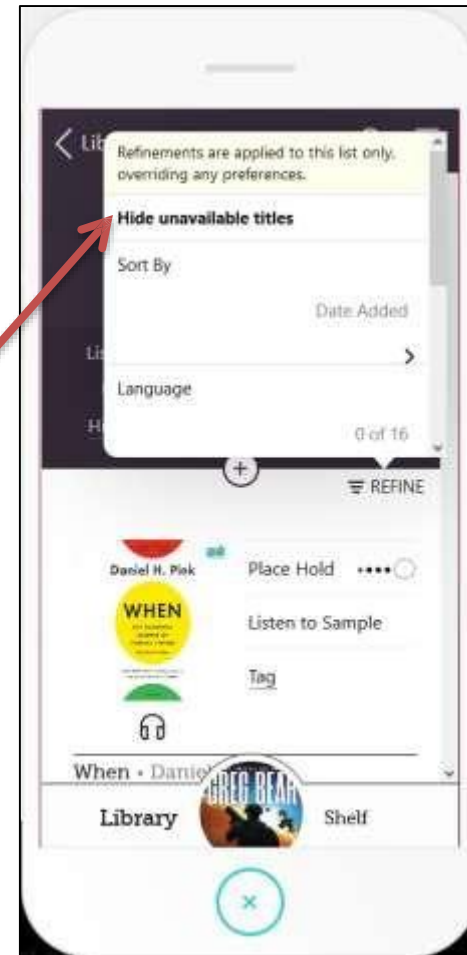

Library

- Tapping Library at the bottom of the Libby app takes you back to the library's collection of eBooks and Audiobooks.
- When you do a search, you can filter items by tapping the underlined links.

Library: Search

- You can also customize search results by tapping “REFINE”.
 - If you only want to see titles that can be immediately checked out, select “Hide unavailable titles” from the Refine options.

Audiobooks

- When listening to an audiobook, Libby will open an Audiobook player.
- You can play/pause the audiobook by using the option located between Library and Shelf.
- A timeline at the bottom shows your place in the audiobook.

Question?

- If you have any questions using Libby, you can get help at:
 - Libby Website Help:
